

# LET'S MAKE A SURVEY

Time to stop and think it over. So many reforms, so much propaganda, agitation, profiteering, that the people are bewildered. They are appealed to to do this and don't do that. Men and women are rushing here and there, organizing this and that, and telling this one and that one how and what to do. Don't you think it is about time for everyone to go to work and forget everything else?

## FRANCE HAS R. R. STRIKE AND TIE-UP

Paris Hard Hit, With Important R. R. Station Closed

(By Associated Press)  
Paris, Feb. 26.—Suburban service out of this city was affected by the railroad strike this morning, the Bastille station serving sections in the eastern part of the city being closed. Thirty-three trains left the St. Lazare station, officials of the company stated, but only a few arrived. At the Paris, Lyon and Mediterranean stations the situation was unchanged. The northern station and the Orleans terminal were normal. Syndicalism threatens to appear in the strike situation. Demands that all railroads be nationalized are being made by strike leaders who continue their efforts to stampede all railroad workers in the country into the strike which began with the walkout of the employees of the Paris, Lyon and Mediterranean systems. In this province the move-

ment is looked upon by the authorities as revolutionary instead of professional, according to some papers. All arrangements to insure the delivery of food supplies to this city have been made by the government and the municipal officials have taken similar steps. The question of placing the railroads under military control is being considered, but such a grave decision, the newspapers say is impossible in the absence of Premier Millerand. It is said that officials take the view that the Paris, Lyon and Mediterranean company is entitled to enforce discipline on its system and it will receive support from the government if necessary. The strike on this road was caused by refusal of the road to reinstate in its service men who were discharged, it is said, because they absented themselves from duty to attend a union meeting.

## FIRE BURNS UP AN AUTOMOBILE AND THE GARAGE

Firemen Obligated to Lay 1000 Feet of Hose on New Castle Avenue.

Fire this morning destroyed the 5-passenger touring car and a garage owned by Major David Uech on New Castle avenue. Major Uech, intending to drive up town, started the engine of the automobile and left the main running for a few moments while he crossed the street to his residence. On his return to the garage he found the automobile wrapped in flames and one side of the building afire. He sent in a quick call for the combination 6, which started for the scene. Chief Woods, fearing the auto chemical apparatus would have some trouble, sent out a hose sleigh from the Court street station. He found that the combination engine could get no farther than Butler street and ordered the crew to return to the Hanover street station.

The crew from the Court street station were obliged to lay nearly one thousand feet of hose to the nearest hydrant to fight the fire. A small dwelling close by was threatened several times but the firemen managed to save it from any damage. The total loss is estimated at \$2000.

## PEACE TREATY FIGHT HOLDING FORTH IN SENATE

Neither Those For or Against Will Prophecy Result

(By Associated Press)  
Washington, Feb. 26.—The peace treaty came back to the floor of the senate today to be given the right of way until disposed of. It is believed that not more than three weeks will be consumed in disposing of amendments to the reservations adopted at the last session of congress and a final vote on the pact reached. After the vote, whatever the outcome, the treaty will be seen no more on the

calendar, according to senate leaders who will await the verdict of the nation at the polls in November. Senator Reed, democrat, of Missouri, who has been one of the most active foes of the treaty announced he planned to speak today. Frankly declaring that nobody would tell what would happen, republican and democratic leaders went back into the hall prepared to use every parliamentary weapon to strengthen their side.

## N. Y. POLICE GET A CONFESSION IN MURDER

Several Arrests Made as Result of Capture of Bond Thief

(By Associated Press)  
New York, Feb. 26.—Through the arrest today of Robert Bradley on a charge of stealing \$3500 in Liberty Bonds from Henry L. Doherty & Co., Wall street, the police declare they obtained a confession throwing more light on the murder of Benjamin Blumkin, the Wall street messenger whose body was found in Coney Island last fall after he had disappeared with \$175,000 in Liberty Bonds.

Bradley, who is 23 years of age, was arrested upon his arrival from Detroit where he said he had spent the last two months. Importantly of a girl friend led him to return, it is said.

FOR RENA furnished room in new home. All modern conveniences. Call 101W.

## DELIVERING THE MAIL ON SNOWSHOES

(By Associated Press)  
Houston, Me., Feb. 26.—Postmen making their deliveries today were obliged to resort to snowshoes on account of the huge snow drifts caused by the storm and gale of yesterday. Roads outside the town were impassable, being blocked in many places by drifts over 15 feet in height. The trains on the Bangor and Aroostook railroad were three to five hours behind schedules.

## SOVIETS ASK PEACE WITH UNITED STATES

(By Associated Press)  
London, Feb. 26.—The Soviet commissary of foreign affairs has dispatched notes to the United States, Japan and Roumania offering them peace with Soviet Russia, according to a wireless dispatch from Moscow today.

Howe and Whitney's Carpet Cleaning Works, 12 Porter St. Tel. connection.

## TO RELEASE WAR PRISONERS

(By Associated Press)  
Budapest, Feb. 26.—Hungary's peace delegation at Neuilly, France, has asked that Hungarian prisoners of war in Siberia be repatriated and have asked the United States and Japan for a loan to carry out the work. Dispatches from the delegates received here say they are virtually in prison in the Chateau Madrid at Neuilly, being allowed to go about the town only when accompanied by a detective.

## YOUNG SON OF VICE PRESIDENT MARSHALL DEAD

(By Associated Press)  
Washington, Feb. 26.—Morrison Marshall, the young adopted son of Vice President and Mrs. Marshall, died here early today after a short illness. The child was three years old and had been a member of the Vice President's family since June, 1917, but never was legally adopted. It was stated today, he was taken into the Vice President's home when he was ten months old from a diet kitchen where his mother, who was employed as a chamber maid, left him in care as his duties occupied her both day and night. Vice President and Mrs. Marshall have no children of their own.

## BROTHERHOOD OFFICIALS CALL AT WHITE HOUSE

(By Associated Press)  
Washington, Feb. 26.—Representatives of the railroad brotherhoods called at the White House today to present a memorial to President Wilson urging that he veto the compromise railroad bill. They were joined by representatives of the farmers' National council who supplemented a previous request for veto with well-organized argument. The visitors did not see the President but were received by Secretary Tamm who promised to lay the memorials and other documents before the executive.

## FAMILY OF FOUR LOSE LIVES IN FIRE

(By Associated Press)  
Montreal, Feb. 26.—Mrs. M. Gregory and her four children were burned to death early today in a fire which destroyed their home at Greenfield Park East. Mrs. Gregory and a two-year-old baby were lying in bed on the second floor of the home when the other three children who were playing on the floor, accidentally set fire to the house.

## PERSIANS DRIVING THE BRITISH

(By Associated Press)  
London, Feb. 26.—Persian revolutionary forces have occupied Reut, near the southern extremity of the Caspian Sea and are driving the British away from this place, according to a wireless dispatch from Moscow today.

## CROWN PRINCE MUST PAY INCOME TAX

(By Associated Press)  
The Hague, Feb. 26.—Decision has been reached that the former German Crown Prince must pay taxes upon the basis of an annual income of 800,000 florins. This action was taken despite protests from the Crown Prince.

## TO PUBLISH NOTES ON ADRIATIC

(By Associated Press)  
Washington, Feb. 26.—Final decision to publish the exchanges between the American government and the Entente powers on the Adriatic question was reached today. Seven notes in all will be made public into today at the state department. Officials estimated that the total text would run close to 12,000 words.

## FIFTH MEMBER OF FAMILY DEAD WITH FLU

(By Associated Press)  
Worcester, Feb. 26.—The fifth member of Alfred W. Vosberg's family here died today from influenza. Since Feb. 11 Vosberg has lost his wife, three children and his sister-in-law, Mrs. Pearl Fuller, who came from Londonderry, Vt., to nurse the sick. Today's victim was a two-year old son. The only members of the family left are Vosberg and a daughter two months old.

DARTMOUTH COLLEGE GETS \$300,000

By the will of Richard K. Tyler, perhaps the largest real estate agent of Washington, D. C., Dartmouth will receive \$300,000. He was the son of General R. K. Tyler of Civil War fame, and graduated from Dartmouth in the class of 1869, being friend and classmate of Senator O. W. Moses and Arthur H. Locke of this city, where "Tip" Tyler spent many summers and was well known here.

# SNOW AND WIND TIES STEAM AND ELECTRIC ROADS

Old King Snow's rule was supreme last night and even Supt. Bill Dowdell of the Portsmouth Electric road, acknowledged its rule for the first time this winter, and at nine o'clock gave up the battle with the snow and his chief office the northwest wind.

It was a complete tie up of electric and steam roads, the electric roads being the worse hit, but the Boston & Maine railroad with all of its snow fighting resources was blocked and trains were from an hour to six and eight hours late.

The storm which was a hang over from the previous day developed during the day into one of considerable proportion, with from eight to ten inches of snow. It was of a light weight and at any ordinary times it would be taken care of without any trouble, but with the accumulation of snow on the ground, it simply proved the last straw. During the afternoon the wind shifted to the northwest and breezed up with the usual fall of temperature and as the wind increased so did the troubles of the railroad men, for the light snow was drifted in great clouds and quickly sought out the deep cuts on the steam and electric roads to find a resting place and by night some of these cuts, five and six feet high were piled to the top and still building. This was the condition that the railroad men faced at seven o'clock after a day's fighting, and it is small wonder that they got discouraged.

Supt. Dowdell of the local electric road who has made a wonderful record in handling the snow this year had managed to keep his cars running in some order. He had hauled in the people from Rye in the morning and had kept the loop lines open on Middle and Lexington street, but as the storm increased the lines grew shorter. He got the five o'clock car out to Rye and this got through to the Center, but after that the drifting snow got the best of the crew. Early in the day the snow plow, long overworked was burned out and it was out of commission for some time. At seven o'clock a flunk (try) was made over the Rye line and the cars sent down following the snow plow, but the plow came to grief in a big drift near the Holmes Farm on Sagamore road and could not get any further. A survey disclosed that it would mean hours of shoveling to get the plow through and the cars were ordered back to Market Square to remain for the night. The odds were too much for even Supt. Dowdell's fighting spirit. In the city the cars were kept moving as far as Ward's corner on the Middle street side and as far as Bartlett street on Lexington street.

Over on the Portsmouth, Dover and York line the services were absolutely suspended at night and everything was at a stand still and the losing fight given up. The Dover line with its almost tunnels for the car tracks were impassable early in the day, and on the line from Kittery Point to the Ferry it was almost stopped, but heavy work was being made, until the northwest wind began drifting the snow, and then faster than plows or crews could handle it, it filled in the cuts and everything was called off until this morning, when a survey will be made and an effort made to once more open the road. It has not only been a losing fight but a costly fight and if conditions continue as bad as for the past month, it may mean the

closing down of the electric roads for a time.

On the Boston & Maine the conditions were somewhat the same as on the electric roads although service was maintained until the middle of the afternoon, although trains on the main line were very late. The last train from Boston was at 3.30 and the train due here at 5.20 ran into a drift at Hampton Falls and there it remained, with a snow plow and other trains behind it. Conditions grew worse during the evening as the snow drifted by the high wind filled the cuts and in places it was four or five feet deep.

The service over the York Harbor and Beach was suspended altogether as well as on the Dover Branch.

**More Coming**  
The plight of the Boston trains in the drifts at Hampton Falls was made worse from the fact that there was no snow plow here to send out from this end and finally a crew of men with shovels were sent out and after a time dug the train out. It arrived here at 12.30 this morning. The other trains which were behind it, came along some time after.

The Yankee due here from Portland at 7.30 arrived at 11.20 and was still in the station at one o'clock, waiting a chance to get away. The Conway train due out at 5.30 was also still at the station at one o'clock, with the cars crowded with sleeping passengers. Two trains were stalled in the drifts on the Dover branch.

## FIRST TO SIGN NAME TO BANK NOTES

(By Associated Press)  
Geneva, Switzerland, Feb. 25.—The first woman to sign her name to bank notes in Switzerland, is Miss Marie Prodham, who has been appointed director of the Banque de Geneve, and will in future sign the notes and scrip issued by the bank.

There are now in Switzerland women practicing as judges, barristers, engineers, doctors and university professors.

(By Associated Press)  
Chicago, Feb. 25.—Two women physicians Dr. Anna Weid of Rockford Ill. and Dr. Lila Andrews of the University of Alabama, today were admitted to membership in the College of Physicians, and they are the first two women who have been so honored.

## ENGLISH H. C. L. NOT AS GREAT AS U. S.

(By Associated Press)  
London, Feb. 25.—Wages continued to advance, hours of labor to shrink and the cost of living went higher than ever before in this country in 1919, according to the Labor Gazette.

"There was a marked reduction in hours of work, the decrease affecting 5,100,000 workers, with an aggregate reduction in weekly hours of 41,401,000, adds the paper. "This was an average reduction of six and one-half hours a week for each worker." Increases granted to 5,647,000 employees aggregated \$2,111,000 a week.

There were in the year 1,113 trade disputes involving 2,570,500 workers, as a result of which they lost a total of 24,433,000 working hours.

The general level of retail prices at the end of 1919 for food, rent, clothing, fuel and light was 125 per cent above that of July, 1914, according to the Gazette. This was an increase of five per cent in the year.

On January 1, 1920, food stood at 135 per cent above pre-war retail prices.

## MANY RECRUITS ENLISTING IN ENGLISH ARMY

(By Associated Press)  
London, Feb. 25.—Recruits are joining the British army at the rate of 200 per day and many of the men whose period of service was about to expire have re-enlisted.

The crack guards regiments have blossomed out again in their pre-war scarlet coats and bearskin busses, instead of khaki.

According to the Morning Post, the regular army is to have its pre-war establishment increased by about 100,000 men, with the ultimate object of getting another 500,000 men voluntarily to undertake liability for general service when the army reserve is needed.

## CHARGED WITH SMUGGLING OF WHISKEY

(By Associated Press)  
Springfield, Mass., Feb. 25.—Frank H. Floyd an employment agent and Austin H. Watkins a colored porter on the Boston & Maine railroad, were arrested here today charged with smuggling whiskey, as R. R. detectives charge that they saw Watkins pass Floyd 13 bottles of whiskey.

## ALLIES WILL CONSIDER NOTE TODAY

(By Associated Press)  
London, Feb. 25.—The Supreme Council tomorrow will take up with President Wilson's reply to the allies note on the Adriatic question, which reached London this morning. If a resolution is considered necessary the council will at once draft it.

## "CONCURRENCE" IN COURT

Washington, Feb. 25.—Legal proceedings to determine whether the prohibition law can be enforced in all states without their concurrence in the act of the wording of the Eighteenth Amendment that "The Congress and several States shall have concurrent powers to enforce this article by appropriate legislation," reached the Supreme Court today.

The whole issue hangs on the meaning the court will give to the word, "concurrent" as it appears in the amendment. Prominent attorneys both for the Government and the liquor interests consider this the most feasible tack on the constitutionality of the amendment.

Liquor interests and States that are protesting prohibition claim that because of the word a law of Congress governing beverages containing no half of per cent or more of alcohol cannot be enforced in a State against its consent. The Senate has no count against with Congress to follow what is stipulating. It is claimed. The hope of the anti-liquorists is that the Supreme Court will decide in their favor and not in the favor of the States.

## Germany, in Campaign to Bolster Value of Mark, Using Sandwich Advertisements

Continued depreciation in the value of the mark has forced the German government to buy up all the gold and silver possible to replace paper money. The paper mark has fallen in value to a little more than one cent. Through sandwich advertisements, the government is offering eleven paper marks for one silver and 360 paper marks for one gold piece. This photograph shows two boys in the streets of Berlin adding the campaign to acquire the valuable metals.

## TRAVELING CHECKS NEEDED IN THIS CASE

(By Associated Press)  
Sydney, Australia, Feb. 25.—One of the aviation difficulties revealed by the flight of Captain Ross Smith from England to Australia was that of obtaining money to pay bills in the currency of the country in which they happened to alight. Said one of the party: "We would fly 500 or 600 miles and late in the day would arrive in a country with a new currency, and could not pay for our things."

"They passed through extremes of temperature. They left England in snowstorm and at an altitude of 8,000 feet found their sandwiches frozen and the coffee in vacuum bottles almost congealed. When they landed in Australia they found the temperature 90 degrees in the shade."

## FAILED TO CALL CAUCUSES IN TIME

Portland, Me., Feb. 25.—Political leaders in a majority of the 12 Maine cities which hold annual elections on the first two Mondays in March, apparently unaware of the action taken by the last Legislature, failed to call their caucuses sufficiently early to comply with the new requirements that nomination papers shall be filed with city clerks at least 14 days, exclusive of Sundays, before election day instead of seven days, as formerly.

Feb. 14 was the time limit in Bath, Eastport, Ellsworth, Rockland, South Portland, Brewer and Biddeford, and in the last Legislature, failed to call their caucuses sufficiently early to comply with the new requirements that nomination papers shall be filed with city clerks at least 14 days, exclusive of Sundays, before election day instead of seven days, as formerly.

Feb. 14 was the time limit in Bath, Eastport, Ellsworth, Rockland, South Portland, Brewer and Biddeford, and in the last Legislature, failed to call their caucuses sufficiently early to comply with the new requirements that nomination papers shall be filed with city clerks at least 14 days, exclusive of Sundays, before election day instead of seven days, as formerly.

## WOOD TO FIGHT HARDING IN OHIO

(By Associated Press)  
Columbus, O., Feb. 25.—Major General Leonard S. Wood today formally entered Ohio to contest with Senator Warren D. Harding, the presidential chair of Ohio and fight for the states in the Ohio primaries. The Ohio primaries will be held on April 27. General Wood entered his candidacy by the filing of his nomination by James H. Price, his

## WILSON APPEALS FOR SUFFRAGE RATIFICATION

(By Associated Press)  
Washington, Feb. 25.—President Wilson appealed to the legislature of Oklahoma today to ratify the federal suffrage amendment. In a telegram to both branches of the legislature and to the Chief of the Governor the President said: "May not take the liberty of expressing my earnest hope that Oklahoma will join the suffrage states in ratifying the Federal amendment, thus demonstrating anew its sense of justice and retain its place as a leader of democratic principle."

## BODIES OF U. S. DEAD WILL NOT BE DISTURBED

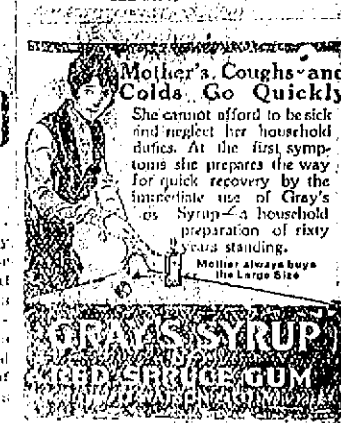

(By Associated Press)  
Washington, Feb. 25.—If such is the wish of the nearest of kin, the bodies of American soldiers overseas will not be disturbed, as far as practical, said Secretary Baker today. But, should they be on private ground or in isolated places, it may be necessary to re-enter them in the regular cemeteries where their graves may receive the proper attention.

## SQUEEZED TO DEATH

When the body begins to stiffen and movement becomes painful it is usually an indication that the kidneys are out of order. Keep these organs healthy by taking

## GOLD MEDAL HAARLEM OIL CAPSULES

## "Let's top it off with a good smoke"

—Chesterfield.

NOTHING hits the spot like Chesterfields. And the blend can't be copied—it's a secret. No use looking for "Satisfy" anywhere but in Chesterfields.

## PROMINENT MASSACHUSETTS MAN DEAD

(By Associated Press)  
Arlington, Mass., Feb. 25.—Robert M. Turner, former ship labor commissioner and a member of the state republican committee died here today.

**CHRIST CHURCH**  
A Lenten service will be held at Christ church on Thursday evening at 7.30 o'clock. The music will be sung by the vested choir. The Rev. Arthur M. Dunstan, pastor of Tilton, N. H., will preach the sermon. There will be a meeting of the Brotherhood after the service and all brotherhood men are invited to attend.

## GOVERNMENT DEFEATED ON PENSION ISSUE

(By Associated Press)  
London, Feb. 25.—The Government was defeated in the House of Commons today in a private members motion calling for a larger increase in the pension of all policemen retired previous to April 1919, in order to meet the increased cost of living. The motion was carried 123 to 67 after opposition by the government. The defeat of the government will not have any political significance, but it will be useful for the government as an argument for economy.

## No Similar Flavor Among Cereal Foods —and easy to explain, for

Portsmouth, N. H., Thursday, February 26, 1920.

At a conference in Atlantic City a few days ago to arrange for the annual encampment of the Grand Army of the Republic, which is to be held there next fall, the grizzled veterans scouted the suggestion that the annual parade might be omitted. They wanted it understood that "We'll parade as long as the Grand Army continues in existence and there is even a corporal's guard left able to tramp to fighting music." That is the sort of stuff that won the Civil War and all the other wars in which the country has ever been engaged.

The reader who through the columns of this paper calls attention to the exceptional severity of the winter of 1918 performs a useful service. The shortness of the average memory is attested by the oft-repeated claim that the present winter is the worst within the memory of this generation.

In some parts of the state the people are fearing a disastrous freshet when the snow goes off, as there will be if it goes suddenly, and the same is true of many parts of New England. But all that can be done about it is to hope for the best and then "take it as it comes."

The proprietor of a hotel that was burned in Providence, R. I., the other day complains that \$500 worth of liquor was stolen from the building after the fire. This sounds like a large quantity, but at present prices it doesn't mean a great deal.

The Chicago building trades, whose wages were raised to one dollar an hour last fall, are now preparing to demand \$1.25 an hour. And probably there is as much howling about rent profiteering in Chicago as anywhere else.

Franklin K. Lane, retiring Secretary of the Interior, enters the service of a petroleum and transportation company at a salary said to be about \$50,000 a year. In the matter of remuneration politics isn't it with oil.

Mrs. Rose Pastor Stokes of New York, formerly a Socialist and now a Communist, and who is under indictment as a radical, violates no law in announcing herself as a candidate for Congress.

A movement is on foot in Boston to bring about an investigation "as to the responsibility for the strike of the Boston police." But doesn't this come a little late in the day?

Perhaps the simplest way would be to decide that a President of the United States is incapacitated when he ceases to be able to throw a bomb.

"Fish scarce and high, meat plentiful and cheap," says a headline. It looks as if the law of supply and demand is failing to properly function.

Stop cursing the weather man and charge it up to the groundhog.

## EDITORIAL COMMENT

Railroads for the Public or Railroads for the Labor Unions.

(New York Sun)

Mr. Samuel Gompers and his crew of industry wreckers have not fought the compromise bill to the last ditch because it threatens railroad workers' pay; for it does not. They know it does not and when they demand and command congress votes against the measure for any such reason, they are simply insulting the intelligence of the legislative representatives of the American people.

They have not fought the measure because it will prevent railway workers from striking; for it will not. They know it will not. And when they attempt to coerce the national lawmakers on any such grounds they are not honest even with their own organizations.

Mr. Samuel Gompers and his wreckers have fought the compromise railway because professional labor union politicians and agitators at the head of a relatively small faction of the country's population have presumed to try to set up a dictatorship over the 110,000,000 people of this nation. Having bluffed and bullyragged scattered elements of industry and business, they now have the impudence and the hardihood to give orders to the President of the United States and to the congress of the United States as to what they want done with the American transportation system. What they want done with it is for the interests and needs of the public but for their own purposes. What they want done with it at the expense of the national taxpayer who must foot the bill for the treasury outpouring

to cover the gigantic deficits of government operations. What they want done with it at the expense of the national consumer who must foot the transportation bills for the billions of dollars handed out at the demand of union scale committees, squandered in political railroading and burned up in socialistic hostilities.

If the Gompers outfit had been able to get away with anything like what they had the nerve to try to get away with the United States congress would not have measured up above the distinction and dignity of a Soviet committee in Red Russia.

If the United States congress had lacked the self-respect, the courage and the patriotism to settle this crucial question, the American national would have gone on the job of doing some striking on its own account and done it with a vengeance against the selfishness of its broad and better interests, the surrender of its governmental authority and the betrayal of its sovereign right and power.

New Battleship Construction

(New York Sun-Herald)

As a result of the trial of the great British battle cruiser Hood, which are now in progress, naval authorities will have an opportunity to see the practical effect of the application to warship construction of the lessons learned from the battle of Jutland, insofar as they have been incorporated as official elements in one warship and in so far as they can be tested in times of peace.

will yield information of value to naval designers.

The increased learn of the Hood—she has one hundred and four feet as compared with 90 1-2 feet of the Tiger, her nearest rival in size—has already revealed another weakness of the British naval bases. It had been the intention to conduct her trials from Davenport but it was discovered that the entrance to the docks there was too narrow for the new battle cruiser. She had to be based on Heston in her trials. The beam of the Hood makes it questionable whether she could go through the Panama canal. The canal locks are 110 feet wide, which would give the Hood a clearance of six feet.

The dimensions of the Hood—she is 860 feet long—furnish a striking illustration of the growth of British warships in size in the first twenty years of this century. In 1900 the longest ships in the British navy were the Powerful and the Terrible, each 620 feet in the waterline. In 1906, the Invincible class ran to 667 feet and now the Hood is 860, only forty-two feet shorter than the Aquilonia, the largest British merchantman, and 40 feet shorter than the Imperator. Nor does the best naval opinion see in the future any reductions in dimensions and tonnage.

It is not the least of the wonders of the Hood that her fifteen-inch guns are on mountings which permit an elevation of 30 degrees extending their range to approximately forty thousand yards, or about 22 1-2 miles.

Russian Trade Is the Touchstone of Allied Diplomacy.

How to regulate business with Russia without beginning diplomatic relations with the Soviet Government at Moscow is now the problem that confronts the council of Premiers in session in London. Hence comes the proposal to send a special commission to find out what is the situation in that country, and whether or not the reign of terror has come to an end.

Berlin has notified the world that unofficial negotiations or conversations between a Soviet trade agent and German representatives have progressed in the direction of a working agreement. This is the significant and outstanding fact in the situation. While the French balk because they want to be reassured that the Soviet Government will recognize the Roum midjo to Russia, largely by the French under the old regime, they naturally have no desire to see Germany enjoy anything like a monopoly, even for a time, of a great source of supply of food and raw material.

Premier Millerand, as a condition precedent to resuming dealings with Russia, as favored by Mr. Lloyd George and Signor Nitti, also insists that the Lenin-Trotsky outfit must abandon their foreign propaganda, which has among its objects the expropriation of capital, the suppression of private property, the confiscation by the workers of lands, industries, mines and railroads, and the maintenance of warfare everywhere against what the Bolsheviks call the capitalist classes.

Most of those who believe that Russia should be allowed to muddle through without interference from outside seem (also) to be of the opinion that, as the general prosperity would involve the prosperity of the persons in control in that distracted country, the simplest way to transform the Soviet leaders, like conspirators of one sort or another would be to turn their minds to practical matters and off with dreams of the conversion of the whole world to insane red ideas.

Anyhow, Great Britain, France and Italy need to do business with Russia because they need the money to pay America and for other purposes. Besides in extremities they might fall back on the good old self-determination theory to prove that Russia has in the present system the most of government that she deserves.

In Russian trade will be found the touchstone of allied diplomacy.

Passage of the Railroad Bill

(From the Boston Herald)

The unexpectedly heavy vote of 47 to 17 by which the Senate passed the

Family With Money But Too Many Children Which Was Forced to Seek Shelter in New York Armory.

S. Sidney Flechtman has \$700 in Liberty Bonds and considerable cash in his inside pocket, but he and his wife and five children are homeless in New York. "No children wanted" is the reply of the many landlords he has visited. The family was living in an upper West Side apartment when the

landlord served them with a dispossession notice. They offered to pay more rent but he told them he did not want more money; he simply wanted to get rid of the children. After a fruitless search for a home, Flechtman was advised to go to Colonel Thomas Crimmins, of the Twenty-second Regiment,

The Colonel has supplied them with temporary quarters in the armory while the husband continues his quest for a home. Mrs. Flechtman and the children are seen here seated in the armory. The children are Mildred, 11; Adrian, 9; Audrey, 6; Clayton, 3; and Robert, 18 months.

After the celebration the ship was to be returned to Portsmouth. Now she reaches out for more of our ships.

## TRANSPORTATION IS KING

Among the points that were brought out at the public hearing of the Portsmouth canal was the great importance of cheap transportation in developing business of any section of the country. One speaker said transportation was king. It enters into everything we use, air and water excepted, and the easiest way to reduce the high cost of living was to develop our waterways and use them. It was the cheapest known transportation.

When would our iron industry be today were it not for the cheap water transportation enjoyed by four-fifths of our total iron production tributary to the Great Lakes? That waterway and not iron, is the foundation of our position as the world's greatest producer of iron and steel.

Thus transportation gives protection. Indeed, obstructions to navigation are obstructions to commerce, and obstructions to production. The removal of the first enhances the others. High cost of freight rates promotes high cost of living, and puts production on the "red," and when production goes upon the red, it is evidence that it has been bled to death.

He continued that New Hampshire had brains and skill and wanted cheap transportation for raw material and her finished products. We had become a great industrial state with high cost of transportation; give us cheap transportation and we will turn the whole state into one large town except the White Mountains, which we would reserve as a national sanatorium.

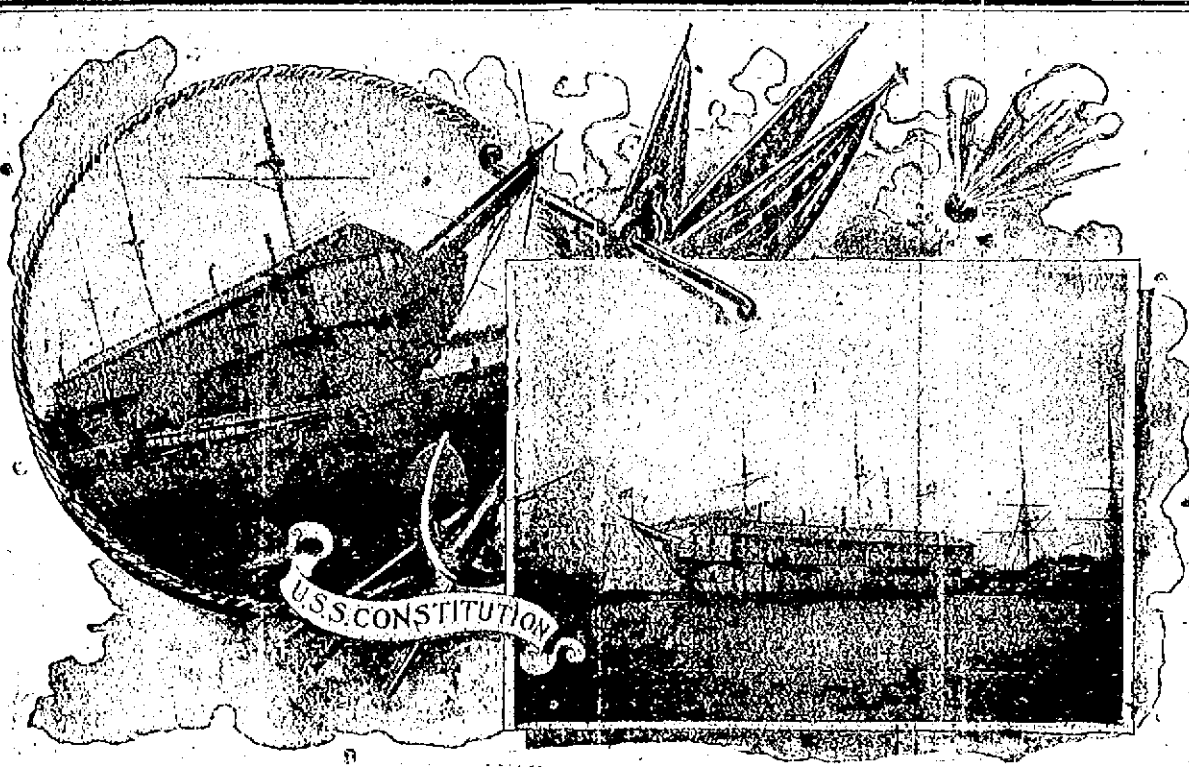

In regard to how much commerce would pass through the Portsmouth canal, you could not tell that any more than you could tell how much business a railroad would have until it was built.

Do you remember in 1842—all the commerce of Lake Superior in and out was transported by one old gray horse, around the falls at Sault Ste Marie and a cart, in trans-shipment, and in 1843 it had increased so they had another horse? In 1844 they began to dig the first shallow canal, and from that time on both the canal facilities and commerce of Lake Superior have increased together until today about one hundred million tons of freight pass around the falls of St. Mary's through these locks, and one hundred thousand

## LEST WE FORGET

frigate Constitution which Portsmouth joined Boston for her celebration.

## MEN'S SOX

In all weights for these stormy days. Snow and slush mean wet feet and it's a good plan to have a plentiful supply of hosiery to change frequently. In our large assortment of Gordon, Ipswich and Mid-dlesex Hosiery you will find just what you need. Little, cotton and wool mixed; 25c, 35c, to 75c.

Also a complete assortment of woolen hose at 65c, 75c, to \$1.00.

## HIGH GRADE SILK HOSIERY

Phoenix and Shawknit

Lustrous, smooth, non-wrinkling, fashionable in appearance, yet reinforced to dodge the darns basket for many weeks. Wide range of colors. Prices, 80c to \$1.25.

## PARSONS THE HATTER

## RESUMPTION OF RELATIONS WITH GERMANY

(By Associated Press)

London, Feb. 26—Resumption of the pre-war shipping relations with Germany is now progressing very smoothly. At Barry, the dockers refused to load the Hedwig Fischer, a German steamer, which was to take a cargo of canned meat for Bremen. She was thereupon sent to Avonmouth, where the dockers were reluctant to do the work, but finally contented. None of the German crew were allowed ashore.

## INCOME-TAX FACTS YOU SHOULD KNOW

The changes wrought after 1919 by births, deaths, and marriages in many families materially affect the liability of members for Income Tax. Millions of babies have been added to the family circles, each of whom brings an added exemption of \$200 on the parents' Income-Tax return. On the other hand, several millions of boys and girls became self-supporting and they form a new crop of income-tax payers. Also, the grim reaper brought his many sorrows and removed many dependents and many of the breadwinners themselves.

Accordingly, it is pointed out by Internal Revenue officials, there are millions of persons who must this year consider their Income Tax liability from a new angle. For their new status as of December 31, 1919, governs for the full year.

Widows and widowers who lost their mates during 1919 are especially affected. They must remember that, unless married again before December 31, they are single in the eyes of Income Tax law. Similarly, those who were divorced or otherwise separated from their wives or husbands must consider themselves as single persons. But a widow is not required to show her personal return the income of her husband up to the date of his death; and the same is true in the case of a widower who suffered the loss of his wife during 1919. For the income of deceased persons must be considered separately with respect to requirement to file a return for the deceased by the executor or administrator, or the full year based on the date of the deceased's death.

The bride and groom of 1919 must figure up the income of each for the full year and consider it jointly with respect to Income Tax requirements, even though they may not have been acquainted during part of the year. Their status on December 31 governs for the full year.

The Internal Revenue Bureau points out that a person's status on December 31 governs two things: First, the requirement to file a return if the single individual had a net income of \$1,000 or more, or if the married couple had a net income of \$2,000 or more; second, the exemption that may be claimed on any return of net income.

And it is emphasized that the requirement to file a return has no relation to the personal exemption, and that a person can not avoid filing a return merely by the fact that no tax is due.

### NOTICE

There will be a meeting of Henry Wallingford Post, No. 38, American Legion, Thursday evening, Feb. 26, at 8 o'clock at Firemen's Hall. All service and ex-service men who do not belong, please attend.

Per order,  
**CHARLES E. PERRY,**  
Commander.  
**GEORGE WILSON, JR.,** Adjutant.

### PERSONALS

S. P. Newton is recovering from pneumonia.

Mrs. Peter Kurtz has recovered from an attack of the grippe.

H. P. Montgomery is recovering from a severe case of the grippe.

Mrs. B. M. Flaher and daughter, Blanche, have left Miami, Fla., for New York.

Mrs. Albert Hishop of Miller avenue is restricted to her residence with a severe cold.

General Manager W. G. McLoon of the D. P. & Y. is confined to his home with the grippe.

Miss Roberta Pickering has resumed her duties at the Atlantic Corporation after a two weeks' illness.

L. A. W. L. Hill, U. S. N., and Mrs. Hill will occupy the Hodgdon home on Highland street this summer.

Dr. and Mrs. Haven T. Paul passed Tuesday in Boston and attended the dog show at the Mechanics Building.

Mr. and Mrs. Robert H. Harding of Brookline, Mass., have returned to their home after a visit with the former's parents, Captain and Mrs. Silas H. Harding of New Castle.

Miss Helen Bennett of Boston, and sister, Mrs. Thomas E. Cottman, of Baltimore, Md., who pass their summers at the family home at York Harbor, are at Palm Beach, Florida, for a stay of several weeks.

## ALL WESTERN MASS. TIED UP

(By Associated Press)

Springfield, Feb. 26.—Trolley transportation conditions that are practically the worst of the winter, existed today in Western Massachusetts, as the result of last night's high wind, which filled in lines that had been laboriously excavated after heavier storms. The few inches of light snow that fell Tuesday night did little harm. Inter-city lines were most affected. Holyoke was virtually isolated from its suburbs. Between Ware and Palmer east of this city, no express car and plow were frozen in.

### NAVY YARD LEAGUE.

Gridley . . . . .	1	1	500
Eagle 45 . . . . .	0	1	000
Stripling . . . . .	0	2	000

The next game will be played Tuesday evening at the Armory by Huntington vs. Eagle 45 and Stripling vs. Marine Barracks.

## LIQUOR REVOLT FLICKERS OUT

(By Associated Press)

Iron River, Mich., Feb. 26.—The armed force of Federal agents under command of Major A. V. Dahymple, who came here from Chicago to "put down a liquor rebellion in the upper Michigan peninsula," today has been withdrawn and the "revolt" itself has flickered out. The only casualties were nine barrels of homemade wine taken by revenue agents from a parish priest's house where the state had stored it for safe keeping, and poured into the snow. Major Dahymple announced he would go to Washington to "lay all the facts before Commissioner Kramer."

State Attorney McDonough reiterated he would demand "a full and complete investigation of this affair and of Major Dahymple's part in giving the United States the impression that Iron County is in revolt and is inhabited by savages." Lack of support from Washington, Major Dahymple said, had caused the failure of his "expedition," but he declared he would not quit his office unless Commissioner Kramer requested it.

## NAVY YARD NOTES

### What Next?

The bureau of supplies and accounts has sent out notice to supply officers directing that great care must be taken that any brand of grape juice for sale in ship's stores and commissary stores contains less than one-half of one per cent of alcohol which it is purchased.

The letter calls attention to the fact that the national prohibition act forbids the sale of beverages of more than one-half of one per cent and that supply officers will be held responsible for strict compliance with the provisions and in order to protect themselves they are advised to have such grape juice now on hand tested.

### Fifty Per Cent Shy

Fifty per cent of the yard employees were absent on Wednesday owing to the storm and hold-up of transportation. A little better showing was made today.

### Total of 442 Men

The naval prison at present has 442 inmates divided as follows: First class prisoners, 37; second class and special second class prisoners, 348; third class prisoners, 57. Three are confined to the hospital.

### Defends the Prison.

The Mutual Welfare News, published at the naval prison by the Welfare League, has the following in defence of the prison and the commanding officer: "Accompanied by Rear Admirals Herbert O. Dunn, U. S. N., and Alexander S. Halstead, U. S. N., the Assistant Secretary of the Navy, Franklin D. Roosevelt, will arrive in Portsmouth on Tuesday for the purpose of making an official visit at the Naval Prison.

"This is the visit to which various newspapers and magazines have been referring, of late, as an 'investigation.' It is to be hoped that the men whose every day life is that of a prisoner will be given the opportunity to refute the weird and wild charges which have been made against the administration of the Naval Prison—the absurdity of which charges can be surmised when it is brought to the attention of the public that the ones making such charges are civilians who have nothing whatever to do with the Naval Prison, and former inmates who left here with some unexplainable petty grievance.

"We know that the officers who are coming on Tuesday are men of broad vision and keen judgment, and we feel confident that their findings, relative to the regime of Lieutenant-Commander Osborne, will completely disarm those whose every attempt to besmirch the good name of the Mutual Welfare League has met with continued confusion."

### Put in Commission.

The destroyer Flusser was formally joined at the Charlestown yard on Wednesday afternoon.

### No Freight Business

The loading and outgoing freight shipments of the yard general store have been very few as far as the steam railroad is concerned the past two weeks.

### Was Formerly the Vogesen

The roller Quincy, now at the yard as the former German steamship Vogesen, she was taken over by the United States June 9, 1917.

### Junk Men from Chelsea

A number of junk dealers from Chelsea, Mass., are at the yard today preparing for the removal of much condemned material which they purchased at a recent public sale.

### Granted Short Furlough

Lieut. W. A. Best of the yard Supply Department has been granted a short furlough which he will pass in alone.

### Total of 65 to Leave.

Approximately fifty discharges and five restorations will be made from the

## LONDON LOCKS HOTEL SPACE TO VISITORS

(By Associated Press)  
London, Feb. 26.—Americans who contemplate coming to England this spring or summer, and Londoners expect there will be thousands of them, should be definitely assured before leaving that hotel accommodations have been arranged, say the hotel managers. Otherwise it is probable that they may be unable to find a place to stay, particularly in London.  
It will be difficult for London to handle a great influx of people this summer, say the managers, and they expect many disappointments among Americans who even attempt to arrange accommodations some time ahead of arrival. The better hotels of the city can not find room for more than 4,000 at one time, they say, but now and many people have engaged rooms months ahead.  
Some Englishmen who have just returned from the United States estimate that 1,000,000 Americans will attempt to see England during the summer months of this summer. More conservative observers, however, place the number far below that.

## CAN MAKE USE OF MAGAZINES

The Organized Charities can make use of old magazines, such as the Saturday Evening Post, and magazines which would be of interest to men

readers. The Secretary has a number of cases where they could be used to add advantage and would appreciate having them left at the office in the Court House.

## BASKETBALL

The Springfield basketball team which is to play here on Saturday evening, play the strong Gloucester team at Gloucester this evening. The Gloucester five are considered one of the strongest in New England, but they do not play away from their home floor. Manager Cronin has been seeking a game, there and here but with no success. The Springfield team will also play some other team in this section on Friday if not they will come here on Friday and remain over until the Saturday game.

## TYPHOID BLOOD TEST MADE IN TEN MINUTES

Medical Congress is Told of Important Discovery

Chicago, Feb. 25.—A new method of diagnosing typhoid which can be performed in ten minutes at the bedside aroused interest today among physicians attending the meeting of the American Congress of Internal Medicine.  
The test was discovered by Prof. H. C. Hines of Tulane University, New Orleans, who will give a practical demonstration of the method.  
"The present method of determining typhoid," said Dr. Frank Smith, secretary-general of the congress, "usually takes twelve to twenty-four hours. A bacterial culture is made and a laboratory examination is required. Dr. Hines performs a blood test at the bedside which can be done in ten minutes."

## BUILDING 89 WIN AND LOSE TO SAILORS

The first team of Building 89 at the Navy Yard defeated the team from the U. S. Gridley and the second team from Building 89 was defeated by the team from the Stribling, at Freeman's hall on Wednesday evening, before a small crowd of spectators. Both games were hotly contested and the first team played a fast game, having Paul Badger of the High School in the place of Walte who is away. They won by a score of 33 to 21, while the Stribling defeated the second team 27 to 11.

For the first team Roberts and Badger were the feature basket tossers and Cosner was the star of the Gridley, while Lapp played a fine game for the Stribling, and Cosner for the defeated team.

The summary:  
Building 89 33, Gridley 21.  
Hennessy 11, Cosner 10.  
Roberts 11, Schuyler (Jones) 10.  
Badger 6, LBD 10.  
Morrell 6, LBD 10.  
Crowley 11, LBD 10.  
Score—Building 89, 33, Gridley 21.  
Goals from the floor—Roberts 6, Badger 4, Crowley 4, Hennessy, Morrell, Cosner 6, LBD 4. Points from fouls—Building 89 1, Gridley 1.  
U. S. S. Stribling Building 89 24.  
Baker 11, Boardman 10.  
Lapp 11, O'Leary 10.  
Smith 6, Cosner 10.  
Kochinok 11, LBD 10.  
Pfeffer 11, LBD 10.  
Score—U. S. S. Stribling 27, Building 89 24. Goals from the floor—Lapp 7, Kochinok 3, Smith 2, Pfeffer, Cosner 2, Bailey 2, O'Leary. Points from fouls—Stribling 8, 24, 1.

## BOWLING

### LEADINGMEN WIN

The Leadingmen defeated the Accounting bowling team of the Atlantic Corporation at the Arcade alleys on Wednesday evening. The score—

Leadingmen	Accounting
Morin 82 92 60—240	Hunt 70 62 70—21
McCam 36 100 82—236	Birtwell 83 79 89—251
Heffernan 34 98 81—213	Crogon 83 82 73—238
Poley 104 81 106—291	Powers 91 80 21—203
Lagasse 86 97 82—265	O'Donnell 96 87 83—266
461 477 420—1368	
Engine No. 4	Hook & Ladder
W. Palfrey 71 56 78—205	Hopner 72 72 67—211
Lane 72 67 75—214	Moore 61 87 68—219
Obrey 78 80 71—229	Ward 68 65 67—191
Adone 77 80 73—230	
Shaffelburg 70 72 65—207	
308 300 350—1117	

## NASAL CATARRH

Though Very Common It is a Serious Disease—Worse at This Season.

It is an inflammation of the mucous membrane, causing a discharge, and is aggravated by colds and sudden changes of weather, but depends on an impure condition of the blood. When chronic it may develop into consumption by breaking down the delicate lung tissues and impairing the general health.

Begin treatment with Hood's Sarsaparilla at once. This medicine purifies the blood, removes the cause of the disease, and gives permanent relief. It has been entirely satisfactory to three generations.

If a cathartic is needed take Hood's Pills—they clean the liver, regulate the bowels.

## Hair Growing on Bald Head

After being almost bald, a New Yorker found hair growing on his bald head. He was told to use the "Hair Growing" cream. He used it for 10 days and found that his hair was growing. He used it for 20 days and found that his hair was growing. He used it for 30 days and found that his hair was growing. He used it for 40 days and found that his hair was growing. He used it for 50 days and found that his hair was growing. He used it for 60 days and found that his hair was growing. He used it for 70 days and found that his hair was growing. He used it for 80 days and found that his hair was growing. He used it for 90 days and found that his hair was growing. He used it for 100 days and found that his hair was growing. He used it for 110 days and found that his hair was growing. He used it for 120 days and found that his hair was growing. He used it for 130 days and found that his hair was growing. He used it for 140 days and found that his hair was growing. He used it for 150 days and found that his hair was growing. He used it for 160 days and found that his hair was growing. He used it for 170 days and found that his hair was growing. He used it for 180 days and found that his hair was growing. He used it for 190 days and found that his hair was growing. He used it for 200 days and found that his hair was growing. He used it for 210 days and found that his hair was growing. He used it for 220 days and found that his hair was growing. He used it for 230 days and found that his hair was growing. He used it for 240 days and found that his hair was growing. He used it for 250 days and found that his hair was growing. He used it for 260 days and found that his hair was growing. He used it for 270 days and found that his hair was growing. He used it for 280 days and found that his hair was growing. He used it for 290 days and found that his hair was growing. He used it for 300 days and found that his hair was growing. He used it for 310 days and found that his hair was growing. He used it for 320 days and found that his hair was growing. He used it for 330 days and found that his hair was growing. He used it for 340 days and found that his hair was growing. He used it for 350 days and found that his hair was growing. He used it for 360 days and found that his hair was growing. He used it for 370 days and found that his hair was growing. He used it for 380 days and found that his hair was growing. He used it for 390 days and found that his hair was growing. He used it for 400 days and found that his hair was growing. He used it for 410 days and found that his hair was growing. He used it for 420 days and found that his hair was growing. He used it for 430 days and found that his hair was growing. He used it for 440 days and found that his hair was growing. He used it for 450 days and found that his hair was growing. He used it for 460 days and found that his hair was growing. He used it for 470 days and found that his hair was growing. He used it for 480 days and found that his hair was growing. He used it for 490 days and found that his hair was growing. He used it for 500 days and found that his hair was growing. He used it for 510 days and found that his hair was growing. He used it for 520 days and found that his hair was growing. He used it for 530 days and found that his hair was growing. He used it for 540 days and found that his hair was growing. He used it for 550 days and found that his hair was growing. He used it for 560 days and found that his hair was growing. He used it for 570 days and found that his hair was growing. He used it for 580 days and found that his hair was growing. He used it for 590 days and found that his hair was growing. He used it for 600 days and found that his hair was growing. He used it for 610 days and found that his hair was growing. He used it for 620 days and found that his hair was growing. He used it for 630 days and found that his hair was growing. He used it for 640 days and found that his hair was growing. He used it for 650 days and found that his hair was growing. He used it for 660 days and found that his hair was growing. He used it for 670 days and found that his hair was growing. He used it for 680 days and found that his hair was growing. He used it for 690 days and found that his hair was growing. He used it for 700 days and found that his hair was growing. He used it for 710 days and found that his hair was growing. He used it for 720 days and found that his hair was growing. He used it for 730 days and found that his hair was growing. He used it for 740 days and found that his hair was growing. He used it for 750 days and found that his hair was growing. He used it for 760 days and found that his hair was growing. He used it for 770 days and found that his hair was growing. He used it for 780 days and found that his hair was growing. He used it for 790 days and found that his hair was growing. He used it for 800 days and found that his hair was growing. He used it for 810 days and found that his hair was growing. He used it for 820 days and found that his hair was growing. He used it for 830 days and found that his hair was growing. He used it for 840 days and found that his hair was growing. He used it for 850 days and found that his hair was growing. He used it for 860 days and found that his hair was growing. He used it for 870 days and found that his hair was growing. He used it for 880 days and found that his hair was growing. He used it for 890 days and found that his hair was growing. He used it for 900 days and found that his hair was growing. He used it for 910 days and found that his hair was growing. He used it for 920 days and found that his hair was growing. He used it for 930 days and found that his hair was growing. He used it for 940 days and found that his hair was growing. He used it for 950 days and found that his hair was growing. He used it for 960 days and found that his hair was growing. He used it for 970 days and found that his hair was growing. He used it for 980 days and found that his hair was growing. He used it for 990 days and found that his hair was growing. He used it for 1000 days and found that his hair was growing. He used it for 1010 days and found that his hair was growing. He used it for 1020 days and found that his hair was growing. He used it for 1030 days and found that his hair was growing. He used it for 1040 days and found that his hair was growing. He used it for 1050 days and found that his hair was growing. He used it for 1060 days and found that his hair was growing. He used it for 1070 days and found that his hair was growing. He used it for 1080 days and found that his hair was growing. He used it for 1090 days and found that his hair was growing. He used it for 1100 days and found that his hair was growing. He used it for 1110 days and found that his hair was growing. He used it for 1120 days and found that his hair was growing. He used it for 1130 days and found that his hair was growing. He used it for 1140 days and found that his hair was growing. He used it for 1150 days and found that his hair was growing. ## HOLLAND HAS INTEREST IN CELEBRATION

(By Associated Press)  
Leiden, Holland, Feb. 25.—Holland's share in the celebration of the tercentenary of the landing at Plymouth of the Pilgrim Fathers will center at Leiden and preparations for it now are in progress.

Many of the English Protestants on the Mayflower lived here for many years after they were driven from England. Others remained at Leiden, not going to America, and principal among these was John Robinson, one of their leaders. His tomb is in the cemetery here and every year many pilgrims come from England to visit the place where he lived.

The American and British ministers to Holland and the Dutch Minister of Foreign Affairs are among members of the committees charged with the arrangements. Rev. J. Irving Brown, minister of the Scotch Congregational church at Rotterdam, has gone to America to interest Americans in the Dutch celebration.

The Dutch arrangements include ceremonies at Leiden University and town hall, at Amsterdam and Rotterdam and Delft, the port from which the Pilgrims sailed.

## SPAULDING BACKS HERBERT HOOVER

Former Governor Comes Out Flatly in Favor of His Candidacy for President.

Former Governor William H. Spaulding has come out squarely for the nomination by the Republicans of Herbert C. Hoover. In a letter to the editor of the Union, Mr. Spaulding declares: "Personally, I feel—and I find many others of the Republican rank and file similarly imbued—that the best man for the next President of the United States is Herbert C. Hoover, the one great genius contributed by our nation to the winning of the war."

This declaration will be sure to cause a considerable sensation among New Hampshire Republicans, inasmuch as Hoover has been entered in the impending primary in this state as a Democrat.

**PREPARE NOW FOR CONSTRUCTION WORK**

Some people are looking forward, even hopefully, for a business depression which would bring about lower wages, and therefore lower prices and a reduced cost of living. Men who think that the way to safety and to prosperity is through paucity and depression and low prices are absolutely without any understanding of the present conditions. Because paucity and lack of employment in the past, involving millions of people out of employment, have brought about lower wages and lower cost of living is to reason whatever for looking for such things under present conditions. The world has completely changed. World inflation has put the dollar in itself, and no power on earth can alter that fact for many years to come.

Wages are high, and justly so. They should continue high. Under present conditions the laboring man is entitled to high wages so long as he gives efficient service.

It is true that the changes which have come about have produced a certain intensification of extravagance and waste on the part of men who are getting high wages. They are at the same time less efficient and energetic than they formerly were, but that is only the inevitable outcome of the mighty changes which are taking place in the financial, economic and social relations of wage-earners and all other interests.

The man who hesitates to carry out construction work because of the high cost of doing work at the present time is making a mistake. He cannot get lower cost for years to come except through a business depression, which is not to be sought and which if it came would mean a desperate revolution, costing every business man and the country infinitely more than it now costs to go ahead as rapidly as materials and labor are available for all work.

The country needs thousands of new homes. They must be built or else the housing problem will in itself threaten revolution.

## DANGER FOLLOWS INFLUENZA

Rebuilding Health After Any Illness.

Getting Well Means Gaining Strength—A Wholesome Tonic

The getting-well stage of grip, pneumonia or other illness is the most dangerous of all because the body, weakened by the disease, is wide open to attacks of other lurking germs.

That is why all the organs of the body must be kept in their best working order, not only to drive out the poison left by the disease, but that the patient shall regain strength as soon as possible to avoid further attacks or suffering from the poisons in the system.

As a means toward good health after any illness, Father John's Medicine builds up the body because it is a pure wholesome nourishment and free from opium, morphine, chloroform or other poisonous drugs or alcohol. Father John's Medicine has had a general success for colds, coughs, troubles, coughs and sore throats, and as a tonic and blood purifier.

**PROVES THE TRUTH**

One of the best known professional men in New York City writes: "After an acute attack of typhoid pneumonia, I had a racking cough and lost twenty pounds in eleven days. I never was a completely run-down in my life. I was about to go to a hospital when I began to take Father John's Medicine, which after I had taken it faithfully, restored me to sound health. I regained that I had lost and have since been as well as ever in my life. I have since learned that my physician had been in the habit of prescribing Father John's Medicine in such cases."

The business men of Baltimore have been noted for many years for their ultra-conservatism; but today they are carrying on an amount of building of dwellings, apartment houses, enormous manufacturing plants and warehouses greater than ever before known in the history of the city, except in the rebuilding period after the big fire. Thousands of dwellings are under construction, many apartment houses costing from \$100,000 to \$1,250,000 or more are under way, vast manufacturing plants to employ thousands of hands are going up or contracts let for their construction. In this respect Baltimore is setting the nation an example which should be followed by the entire country. In the extreme conservatism of Baltimore business men justifies the vast building activities in that city, surely there is no other progressive town or city in the country in which the same forces for upbuilding should not be let work aggressively.—Manufacturers Record.

## LODGE FOR FINAL ACTION ON THE TREATY

Washington, Feb. 24.—Senator Lodge gave notice today that on Thursday he will call up the German peace treaty and that he will expect the Senate thereupon to give consideration to the treaty until it is disposed of. This announcement cannot be regarded as other than a notice by the Republican leader that if the treaty is to be killed its death may as well take place at the earliest possible moment, thereby allowing time for the discussion of other measures. Senator Lodge said he will expect the Senate to dispose today of the Sterling bill for the retirement of Civil Service employees—which evidently cannot pass the Senate—and that tomorrow the dispatch bill would be taken out of the way, probably by its passage, and it is regarded as an emergency measure.

It is apparent from the talk about the Senate that none of the fourth democratic moves for the ratification of the treaty, even with the Lodge reservations intact, will amount to anything. Many more democratic senators than ever before stand ready to vote for the American League treaty, but not enough to put it through. The statesman of Senator Lodge today is regarded as merely a convenient echo of the sign of Senator Hitchcock breathed last week, when the Nebraska Senator practically admitted that he could do no more to insure the ratification of the treaty, and that it might as well be "out of the way," in permit consideration of other business. Whether, should the treaty finally be eliminated, something in the nature of the Knox resolution providing for a technical ending of the state of war will be presented remains to be decided. For all practical purposes the treaty and the league covenant are as dead as door nails, as far as the United States is concerned unless a complete surrender is made by the Administration forces.

Circumstances of the Lansing resignation and the correspondence relating to the disposition of territory on the shore of the Adriatic do not seem responsible for a deep distrust of the whole treaty, not only in the Senate, but throughout the country, as senators are noting a great falling off in their correspondence dealing with the treaty and urging that it be ratified.

## RELIEF ENGRAVING

A new discovery in the field of science eliminates the necessity of an expensive copper plate.

This new method permits you to keep right up to the very latest forms of engraving without the added expense of new plates.

Relief Engraving is less than one-half as expensive as the old method. In fact it places engraved stationery and calling cards well within the reach of nearly every one.

We would be pleased to show you samples.

## YORK AND DOVER BRANCHES ARE BOTH TIED UP

Passengers Have Hard Time Getting to Dover; No Trains From York Beach Since Tuesday.

The Boston & Wolfboro passenger train due in this city at 5.30 p. m., and which was stalled in the snow at Hampton Falls on Wednesday afternoon, arrived here at 6 o'clock this morning.

Other Portsmouth trains arrived about midnight from Boston, having been operated on single track around the stalled Wolfboro train.

The eastbound Pullman reached here at 1 o'clock this morning. Passengers for Dover had their troubles in getting home on Wednesday night on the second train for that city. This train got stuck in snow near Bethany and the passengers had to transfer to the train ahead and the stalled train abandoned.

No train has moved over the York Beach branch since Tuesday night. This line is tied up tight on account of two locomotives operating a snow plow being off the track between York Beach and York Harbor.

The morning Pullman for Boston, due at 2.55, reached Portsmouth at 8.30 this morning. Local trains from Portsmouth to Boston started out this morning nearly an hour late and may possibly reach their destination some time today. The snow is still drifting and with only a few plows in operation the railroad is having a hard time clearing the tracks west of Portsmouth.

### THE HERALD HEARS

That hungry passengers on the delayed pullman train this morning put away about everything they could get hold of in the depot cafe.

That grain is reported as getting scarce in this city owing to the delays in railroad transportation.

That the high cost of living was not in the mind of Anthony Freeman of Medford, Mass., when he guest intem eating contest.

That Anthony got into a wager of \$10 to \$7 as to how much food he could put under his belt at one time.

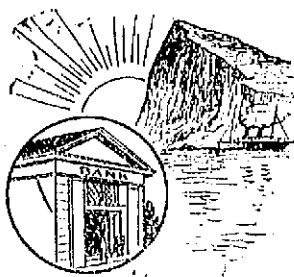

That he tucked away 25 fried eggs, four slices of toast and drank 2 quarts of milk.

That he would make a real good boarder for some eating house, the proprietor of which would owe him nothing at the end of the week.

That Thomas Larkin, a truckman at San Francisco takes a queer way in get back at the man who stole his girl.

That Larkin, when he found she was hooked up to another man, got busy during the honeymoon.

That he backed a truck up to the home of the newlyweds and took all

### A ROCK OF SAFETY INDEED

Is a savings bank account in time of trouble. Glad indeed is he who has had the foresight to put by a little from every pay envelope. How different it is with the man who has not saved but spent all he earned. He like the first man, commenced and save now to provide for the time when your savings will be your only resource.

### NATIONAL MECHANICS & TRADERS BANK

the new furniture, leaving a cheerless cot for the pair on their return. That the police took Larkin in and Larkin took the furniture back to his former lady love and suitor. That railroad men cannot complain of overtime work this month. That some of the local barber shops are employing women barbers. That janitors of bank buildings say that the coal and snow shovels are no strange implements to them this winter.

Every day makes more apparent the fact that the most vital part of our educational work in the public schools is health education," said Dr. Thomas D. Wood, professor of physical education at Columbia University, N. Y., in his address given before the National Council of Education at Cleveland, Ohio, on Tuesday.

Wrestling match Monday evening, Freeman's Hall, Dryden vs. Jim Paulis.

## OBITUARY

George Donald Leeman

George Donald Leeman passed away this morning at the home of his parents, Mr. and Mrs. Aaron H. Leeman, 210 Austin street, aged 18 years. He is survived by his parents, two brothers, Clifton and Percy T. Leeman, and one sister, Eleanor M. Leeman. The funeral services will be held from the home, Saturday afternoon at 1 o'clock. Friends invited.

## COMPLAINTS ABOUT THE CENSUS WORK FOR PORTSMOUTH

No Time for Omissions or Errors; Exact Population Record Must be Made.

Complaints are coming fast as to the censusing in Portsmouth and many people are yet the most official recorder.

This is a matter for Portsmouth and every inch of the ground should be covered.

Portsmouth wants to know its exact population and there should be every means used to get the total number of residents. The city has for years been handicapped in the work of getting out its directory and many names of people who have resided here for years, have not been recorded. The census taking should be no repetition of the directory work.

## PURCHASES THE BUSINESS OF THE LATE DR. LANCE

Dr. H. B. Carpenter of Lancaster, N. H., has purchased the office equipment and the business of the late Dr. A. J. Lance and opened the office at 32 Congress street on March 1.

#### INTERMENT IN CONCORD

The remains of J. Roy Spiller, who died at his home on Barrett road, New Castle, on Saturday were taken to his native place, Concord, on Tuesday for interment. Funeral services were held at the home in New Castle on Monday afternoon, Rev. Dr. G. L. Haines officiating. On Wednesday services over the remains were held from the chapel of Kendall, Foster & Kilkenney in Concord. Rev. Walter Crane Myers officiating. Harold Dearborn rendered a vocal solo. The bearers were Charles S. Stannels, Fred Dineen, Arthur Knowlton and B. C. Newhall. The body was placed in the receiving tomb in Blossom Hill cemetery, Concord.

#### METHODIST CHURCH NOTES

The ladies are to serve a supper to night at six o'clock and after the supper District Superintendent T. H. Hicks will preside at the fourth quarterly conference. Written reports will be given by the heads of the different departments of the church. Important business is to come up and contributions will be chosen for the year.

WANTED—Experienced waitress at once. Apply La Fayette Cafe, Telephone 81.

## CENSUS HEADS COMING TO PORTSMOUTH

That the city has not been thoroughly canvassed by the census enumerators seems to be the general opinion of our residents. A number of homes have not been visited, and in some of these there are large families. It is very important that Portsmouth has an exact count of its population and State Supervisor Mitchell of Rochester, who is in general charge of this work in this district, will be in this city at an early date and look into the matter. The increase in the city's population has been large in the past few years and the result of an accurate account of its population is awaited with interest by not only Portsmouth people but residents of nearby towns.

## LARGE NUMBER ATTEND SERVICES

The Lenten services at the Church of the Immaculate Conception brought out a large number of people on Wednesday evening regardless of the inclement weather. The preacher was Rev. Thomas Wheelwright of Boston, who opened the series of sermons here on Ash Wednesday. His text was, "What Will You Give Me, and I Will Deliver Him Up to You?"—words taken from the Passion of Our Savior. The service closed with benediction.

## Portsmouth Metal Trades Council Special Meeting

There will be a special meeting of Portsmouth Metal Trades Council on Thursday evening, Feb. 26, at 8 o'clock. Business and discussion on matter of keeping a delegate in Washington. FRANK DALEY, V. P. E. R. St. Clair, Secy.
